

VINEET KOTIAN

TECHNICAL PROGRAM MANAGER | ENTERPRISE SAAS DELIVERY | RELEASE & VALIDATION GOVERNANCE

Mumbai, India | vineet.kotian9320@yahoo.in | linkedin.com/in/vineet-kotian-67732993

Technical Program Manager with 14+ years driving cross-functional delivery, release governance, and program execution across SaaS and enterprise technology platforms. Skilled at managing scope, schedule, budget, risk, and dependencies across globally distributed teams, with direct people-management experience (20+ direct reports) and offshore/vendor delivery oversight. Certified Scrum Master (CSM) with hands-on SAFe/ART exposure. Increasingly applies AI-assisted automation — Claude Code, Power Automate, Jira Automation — to strengthen program visibility and reduce operational overhead.

CORE SKILLS

- Program Planning: Scope, Schedule, Budget & Risk Management
- Cross-Functional & Matrixed Team Leadership
- Dependency Mapping & Release Governance
- Validated SDLC, CSV & Audit Readiness (SOC2 / ISO 9001 / ISO 27001)
- Vendor & Offshore Delivery Management
- Capacity Planning & Resource Allocation
- Incident Management & Post-Incident Governance
- Stakeholder & Executive Communication
- AI Workflow Automation & Process Optimization

TOOLS & TECHNOLOGIES

Platforms: Jira, Jira Automation, Confluence, Bitbucket, Snyk, ZenQMS, Excel, Dashboards, Reporting Tools

AI & Automation: Claude Code, Cursor AI, Atlassian Rovo Agents, ChatGPT, Power Automate, Prompt Engineering, API Integrations.

PROFESSIONAL EXPERIENCE

Product Operations Lead (Program & Release Management) — Scitara Corporation, Mumbai Apr 2022 – Aug-2026

- **Program Ownership:** Owned delivery cadence and cross-functional program execution for Scitara DLX, a 30+ connector SaaS integration platform, linking enterprise pharma labs, instruments and third-party applications — coordinating a 38-person org (Engineering 30, PM/PO 4, DevOps 2, QA/Validation 2) across global time zones.
- **Release Governance:** Instituted a weekly release operating model, delivering 100+ releases across 4 years; drove planning, grooming, retrospectives and change management.
- **Platform Lifecycle Ownership:** Owned long-term support policy, release decommissioning and version governance across 100+ supported platform versions, translating platform strategy into operational execution.
- **Validated SDLC Governance:** Strengthened validated SDLC and CSV compliance — updated SOPs, authored validation plans, and operationalized document creation/approval workflows, compressing validation cycle time by 50% from 14 days to 7 days.
- **Incident & Risk Governance:** Led incident communications and post-incident governance — standing up structured reporting and stakeholder engagement, that reduced time-to-mitigation from 4 days to 2 days.
- **Audit Representation:** Represented Product & Engineering in SOC2 Type II and 10 enterprise customer audits, ensuring traceability, data integrity, and validation evidence across releases with 0 critical findings.
- **AI-Driven Automation:** Built AI-orchestrated delivery tooling using Claude Code — a single-command release health report pulling live Bitbucket, Jira and Confluence data (epic completion, PR review accountability, QE coverage gaps), and an automated quarterly vulnerability lifecycle test spanning 30 connectors with severity triage and compliance reporting.

Project Lead — HERE Technologies, Mumbai *Apr 2020 – Apr 2022*

- **Program Leadership:** Led two concurrent global 2D/3D Buildings programs within HERE's Global Content Operations, across EMEA, Americas, and APAC for enterprise and OEM customers including BMW, Audi, and Amazon.
- **Team & Vendor Leadership:** Directly managed 20+ solid-line reports (GIS analysts and 3D modelers), within a broader ~60-person global delivery organization including a 20-person dotted-line offshore team.
- **Budget & Capacity Management:** Owned a quarterly capacity budget of ~20,000 production hours, allocating spend and work across internal and offshore teams to maintain delivery continuity.
- **Governance Cadence:** Owned quarterly planning and release cadence; governed weekly status and program updates to senior leadership and Global Operations, tracking scope, first-time-pass-rate, cycle-time, and budget adherence.
- **Process Excellence:** Drove defect reduction, cycle-time improvement, and cost efficiencies through Lean Six Sigma (Green Belt) initiatives, contributing to broader Black Belt-led programs.
- **Audit & Compliance:** Passed ISO 9001 and ISO 27001 audits with zero critical non-conformities; supported customer audits influencing renewals and expansions.

Project Coordinator — HERE Technologies, Mumbai *Apr 2018 – Apr 2020*

- Coordinated multi-stream map data production programs across Product, QA, Engineering and Operations; standardized workflows and SOPs supporting new product launches.

Senior GIS Analyst / GIS Analyst — HERE Technologies, Mumbai *Apr 2011 – Mar 2018*

- Produced and validated large-scale geographic datasets (building footprints, landmarks); trained new analysts on tools, data standards and production workflows, and drove root cause analysis on production quality issues.
- **SAFe/ART Exposure (2016):** Participated in an Agile Release Train / Program Increment planning event in Slovakia, gaining working knowledge of the Scaled Agile Framework beyond team-level Scrum.

SELF-INITIATED PROJECTS

Early-stage prototypes built solo with AI-assisted development (SuperGrok). Deployed on Vercel, source on GitHub, shared with practitioners for feedback.

- **PM Loop** — A structured learning app for aspiring product managers, built to address the gap between PM theory and day-to-day practice. Defined the problem, scoped the MVP, and shipped a working prototype [Link to the app - <https://loop-pm-gym.vercel.app/>]
- **Mum-Dev-Tracker** — A tracker for active development projects across Mumbai, built on public planning data. Prototype stage. [Link to the app - <https://mumbai-dev-tracker.vercel.app/>].
- **Portpath** — A step-by-step tracker for importing and selling goods in India, mapping a process that is fragmented across agencies and poorly documented. Prototype in feedback with [N] users from trade and logistics backgrounds. [*Prototype in progress*].

CERTIFICATIONS

- **Delivery & Process:** Certified Scrum Master (CSM) | Certified Lean Six Sigma Green Belt
- **AI:** AI Fluency Framework | Claude Code 101 | Claude Code in Action – Anthropic | Foundations of AI and Machine learning – Microsoft.
- **Product Management:** Global Certificate in Product Management - Accredian
- **Leadership:** Leadership Accelerator – Servant Leadership Program, Here Technologies

EDUCATION

Bachelor of Commerce (B.Com.) — Thakur College of Science & Commerce | Jun 2005 – Mar 2010

AWARDS & RECOGNITION

- Operations Excellence Award (2018) | Creative Genius Award (2016) | Golden Impulse Award (2015)
